
Product Data Sheet

Description: PBK used is for detecting water level at the bottom of the boat and can also be used as a pump switch by manual operation. The adjustable bracket is used to fix the sensor in place and slight adjustment of height. The housing, which can be conveniently disassembled and cleaned, prevents foreign particles from interfering with the float's movement.

Connector:	12V, Yes 24V, No			
Length:	Body:	4" / 100mm	Wire:	B: 3000mm P:800mm M:3000mm
		Customized		B: 600mm P:330mm M:620mm
Material:				Customized
	Body:	SUS 316 Stainless Steel or Customized	Gasket:	NBR or FPM
Mounting:	BSP 1 1/4" Thread			
Product Name:	PBK			
Product Type:	Bilge			
Voltage:	12/24V
